

Town of Watson  
Lewis County New York  
6971 Number Four Road  
Lowville, New York 13367

Dear Town of Watson Water Customer

This letter is to inform you that the Town Board enacted new water district regulations and fee schedules earlier this year.

These regulations were enacted in part due to the new municipal water system that the Town is currently working on and are required by USDA/Rural Development as part of our agreement with them. USDA/Rural Development is helping the Town finance this project.

As part of the agreement with USDA the Town has hired a water clerk who will oversee billing and receiving.

The users in District #4 who are currently being supplied by the Village of Lowville system will remain on that fee schedule until the Town's system is up and running, hopefully later in 2019. At that time you will be switched over to the Town supply and your water fees will change to the District #4 Extension 1 fees.

Please note that the Town Board has enacted late fees and interest rates for all users who are late on the payment schedule attached.

As in the past water bills not paid by November will be re-levied to your property tax bill. There will be a re-levy fee for the transfer.

The Town Water Regulations and fee schedule may be viewed on the Town web site: [www.townofwatsonny.com](http://www.townofwatsonny.com)

Questions or comments may be directed to any Board member, the Town Supervisor, or the Town Water Clerk.

Thank You

Town of Watson Town Board
